The Lindy USB Type C to DisplayPort Converter allows users to easily add external video capabilities to a computer featuring the USB Type C port with support for DisplayPort Alternate Mode. The converter is powered by the USB Bus, therefore no external power supply is needed, saving space and time when connecting.

With support for resolutions up to 3840x2160 144Hz, content can be viewed with superior clarity and stunning accuracy, while the Type C connectors reversible design means a connection can be found regardless of which way the cable is inserted into the port of a laptop, notebook or Macbook.

With Plug and Play installation, this converter can be installed with minimum fuss, perfect for both professional and first time users.
