Moza Racing Extension Rod

Model: RS061

Manufacturer: MOZA RACING

EAN: 723497239974

Product Code: 1432545

R3,369

Enhance your racing setup with our 15cm Base Shaft Extension, crafted from aerospace-grade aluminum for a lightweight and sleek design. Extend the distance between the base and wheel, replicating a real racing car’s steering column while maintaining compatibility with various wheelbases. Keep your setup professional with the ability to hide the base behind a dashboard or monitor, and enjoy seamless wheel swaps with the retained quick-release mechanism.

Extends the Base Shaft by 15cm

Increases the distance between base and wheel by 150mm to better replicate a real racing car’s steering column. This enables the base to be easily hidden behind a dashboard or monitor for a sleeker and more professional look.

Aerospace-Grade Aluminum

Construction

The extension rod is precision-machined from aerospace-grade aluminum alloy using CNC technology. Its lightweight design results in extremely low rotational inertia.
