

ACT Wireless keyboard and mouse bundle (Qwerty), silent click, eco- friendly, made from recycled materials

Model: AC5725

Manufacturer: ACT

EAN: 8716065559743

Product Code: 1432947

R1,434

The ACT AC5725 Wireless Keyboard and Mouse set is perfect for everyday use in the office or at home. The set is made from recycled materials. The keyboard is equipped with soft keys and the mouse has silent click buttons and a 1600 DPI sensor to ensure accuracy and precision. The set comes with a single wireless USB-A dongle and has an on/off switch to save battery power. The soft keys and silent click feature ensure quiet operation and are ideal for use in offices, libraries and shared workspaces.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Keyboard with soft keys

The keyboard in the AC5725 set is a full-size keyboard with multimedia keys. This keyboard has soft keys for silent keystrokes. Adjust the keyboard to your preferred height using the tilt legs.

Wireless mouse with silent click

The wireless mouse in this set is a compact mouse with convenient side buttons. Select your preferred DPI accuracy and precision by pressing the DPI switch and choosing between 800-1200-1600 DPI. This flexibility gives you the right level of precision for any task.

Keyboard and mouse set: ideal for offices and shared workspaces by its silent click and soft keys

The silent click feature of the wireless mouse and the soft keys on the keyboard produce minimal noise. Unlike standard mice/keyboards that tend to make audible sounds, this set is designed to operate as quietly as possible. It's ideal for environments where keeping noise levels down is important, such as offices, libraries, or shared workspaces.

Nano receiver: stores inside the mouse

The set comes with a single USB-A nano dongle. The USB receiver stores conveniently inside the mouse.

Made from recycled materials

At ACT, we care about the environment. That's why we use recycled materials in our products. For example, the ABS plastic in this keyboard and mouse set is made from 85% recycled materials.

Intelligent Power-saving

The mouse and keyboard in this set have an intelligent power-saving function, and an on/off switch to extend battery life. With the included batteries, you're ready to go right out of the box.
