The solar cable H1Z2Z2-K, 4mm², incl. solar plug in a set of two (black/red) has been specially developed for wiring photovoltaic systems and offers maximum reliability and durability. With its robust construction and outstanding technical properties, it ensures that the PV system will operate efficiently and safely for years to come. The H1Z2Z2-K 4mm² solar cable is the optimal choice for safe and efficient cabling of your photovoltaic system. With its high-quality construction and comprehensive protective features, it ensures reliable power transmission and helps to maximise the energy efficiency of your system.

Note on the wire cross-section:

The required wire cross-section depends on the current and the distance or cable length. If in doubt, please consult a solar technician to find out which wire cross-section you need.
