When it comes to your phone, you want protection and optimal screen readability. The Anti-Reflective Armor Screen Protector from PanzerGlass® delivers both. Made with 60% recycled glass protecting your screen from everyday accidents.

The new anti-reflective treatment significantly decreases reflection and increases the light transmitted. That means you can view your screen in full sunlight with barely a hint of reflection.

The effect is obtained by means of a multilayer coating with different refractive indexes and a special surface structure that mimics the structure of a moth’s eye. The texture provides a soft look,

anti-glare properties and very low friction. With light transmission of more than 94% and reflectivity below 0.3%.

Installation is a breeze, thanks to the EasyAligner included in the box. We've made it as simple as can be with step-by-step instructions and a QR code for quick access to our online how-to video. Once the protection is applied, you'll never again have to worry about your phone tumbling screen-first. This may not happen, but then again… it might!

For extra protection, pair the Anti-Reflective Armor Screen Protector with PanzerGlass® PicturePerfect or Hoops® camera lens protectors, and a case from CARE by PanzerGlass®.
