Model: EL17CL006782

Manufacturer: DBRAMANTE1928

EAN: 5711428067821

Product Code: 1435057

R832

eco-lens Pro is an upgraded camera lens protector made from recycled glass and 100% recycled plastic (PC + rPET). Featuring 9H hardness, an anti-reflection layer, and anti-fingerprint coating, it now withstands up to 55kg of force — twice as strong as the original eco-lens. Easy to apply, fully recyclable, and protects without affecting photo quality or adding bulk.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
