Looking for drill bits to help you get clean cuts in stainless steel? Drill bits that work fast, deliver precise results, and won’t wear quickly? PRO Stainless Steel HSS-Co Twist Drill Bits are strong and won't wander so that you can drill clean and precise holes – time and again.

PRO Stainless Steel HSS-Co bits are a great choice for construction workers and installers who need long-lasting bits to drill in stainless steel and other metals. We made them from premium high-speed steel reinforced with cobalt (HSS-Co) and ground them to ensure great wear and heat resistance. They feature a centring tip so that you can start new holes exactly where you need them. This means you can work faster and enjoy the drill bits’ performance for longer.
