The Speedline Wood Circular Saw Blade delivers fast rip and crosscuts in all types of wood. Its high-quality precision-ground carbide teeth make the blade robust enough for rapid cutting while its base blade made of dimensionally stable SK5 hardened steel (> 40 HRC) ensures accuracy. Furthermore, the blade's expansion slots lower vibration during use, which dampens noise and reduces heat development. Use this saw blade in all types of wood and wooden materials. It is compatible with hand-held and table saws. Speedline Wood Circular Saw Blade delivers fast rip and crosscuts in all types of wood
