Model: 18010

Manufacturer: ESGE

EAN: 4011689160103

Product Code: 1436804

## R1,434

The wireless, removable stainless steel water tank from the BLITZKOCHER Edition, which can be rotated 360°, holds up to 1.5 liters of water - for tea, filter coffee or a quick instant soup. The water level indicator in the full-length stainless steel tank and the separate base with connection cable and cable storage ensure quick and easy operation. In terms of safety, the ergonomically designed anti-slip rubber coating on the handle, the dry run protection and the boil stop with automatic switch-off score points.

The covered heating element and the large opening of the water tank make cleaning easier. The lid of the water tank with integrated limescale filter opens at the touch of a button. Available with plastic elements in white, black or blue.
