R2,105

Next generation storage technology

The Verbatim Vx500 External SSD uses high speed flash memory and a USB 3.1 Generation 2 controller, optimised to provide unparalleled performance.

Be in control of your data

Storing, moving and backing up large amounts of digital data can be time consuming and hard work. With transfer speeds of up to 500 MB/s even high resolution video files can be moved in seconds. The Vx500’s enhanced performance makes it ideal for running virtual machines on your computer.

Simple, sleek design

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

Made from space grey aluminium and weighing just 29 grams, the Vx500 External SSD has a very sleek and sophisticated look and feel. Although small in physical size, it has some serious storage space - available in capacities of up to 480GB, it is the perfect accessory for Ultrabook’s with limited on-board storage.

Well connected

The Vx500 comes with USB-A and USB-C cables so can be used immediately with a wide variety of devices, from PCs and TVs to the latest mobile devices.
