Slim High-Speed HDMI cable engineered for durability, performance, and tight-space installs

This High Speed HDMI® Slim Cable with Ethernet withstands the daily demands of connecting your HDMI devices. Tested to endure strenuous wear and tear, the rugged cable is a must-have for both business and consumer applications.

Built for Daily Use

The Premium Certified Slim HDMI® 2.0 cable has aramid fiber reinforcement that braces it from the stress of frequent bends. This also lets the cable flex without over-stretching or damaging the core of the cable.

Cable Key Features

Aramid fiber adds strength and durability to the cable

Insulated conductors reduce friction, provide more flexibility

EMI protection with aluminum-mylar foil with braided shielding

TPE cable jacket is more flexible than a standard PVC cable

34AWG Slim HDMI cable with compact 4.5mm OD

Flexible Strain Relief

The cable is constructed to prevent the connector from separating from the jacket. The extra-long strain relief molding is tested to withstand over 10,000+ bend cycles at a 180° angle.

Connector Key Features

HDMI gold plated connector with metal shield protects the circuit board from EMI and reinforces the connection point
