R5,591

Awarded with the high security level P-5, the HP OneShred 12MC shreds up to 12 A4 sheets at a time to 2 mm x 15 mm clippings. These features make this modern office shredder an indispensable helper when it comes to the lawful destruction of personal data in accordance with the DSGVO. In micro-cut, the white document shredder reliably shreds patient files, process documents and other sensitive documents and is a quintessential feature of any open-plan office, medical practice or law firm. If the HP OneShred 12MC has been in continuous use for more than 20 minutes, it also needs a 20-minute cool down period to prevent the device from overheating.
