Wireless Bluetooth Disco Light Ball Speaker to get your party started

The Sound Science Bluetooth® Disco Light Ball Speaker II from Manhattan creates the perfect party atmosphere with the built-in LED light and a wide range of colors. Music can be played wirelessly via Bluetooth from smartphones, tablets, and PCs, or directly, either from a USB stick in the built-in USB-A port or a MicroSD card in the card slot. Should you be tired of your own playlists, use the FM radio mode. Ideal for beach, garden, karaoke, birthdays, and much more.
