The GWS 30 PB Professional's powerful 2,800 W brushless motor delivers an increase in productivity, enduring performance, and a very high material removal rate. Key components ensure a long service life and the brushless motor reduces tool downtime and wear. High productivity is combined with convenient safety features designed to protect the user. Vibration Control prevents long-term damage to hands. KickBack Control, Soft Start, Restart Protection, an integrated motor brake, and a PROtection switch for immediate power off when releasing the trigger all guard against accidental injuries.

Equipment & Application

The GWS 30 PB Professional will grind metal or welding seams and cut through rebars, metal, and concrete.
