Durable 3-Button Computer Mouse for Laptop and PC at Home or Office

The Manhattan MW3050 Wireless Optical USB Mouse offers reliable performance in a durable, comfortable design. Its precise 1200 dpi optical sensor offers smooth, lag-free control on almost any surface for a wide range of computing tasks.

Just the right size

With a full-size shape of 10 cm (4 in.) length, this mouse offers a more comfortable grip than a mini mouse but is still compact enough for small laptop-bag pockets. The nano receiver hardly sticks out of your notebook's USB-A port and provides an effective range up to 10 m (33 ft.) for true wireless convenience.

Plug & play and all you need

Plug-and-play capability with Windows®, Mac®, Linux®, and Chrome OS™ compatibility makes installation quick and easy. An ambidextrous shape that comfortably fits the palms of right- and left-handed people and its familiar configuration (three buttons with scroll wheel) make this Wireless Optical Mouse ideal for nearly anyone's daily computing needs.
