The Vertiv Avocent MergePoint IQ Server Interface Module is designed for use with KVM over IP switches. This cable connects to the Autoview and MergePoint Unity KVM Switches using standard CAT5 cable and provides a DisplayPort video and USB 2.0 interface for connecting to the server. The cable allows the administrator to use virtual media for remote ISO loads and troubleshooting as well as having smartcard/CAC authentication support. One cable is required for each server connected to the KVM Switch.
