TK-350 Wireless keyboard

Wireless and silent keyboard for hours of working comfort

Better Working Starts Here

The TK-350 Wireless Keyboard is designed to make working more comfortable. Suited to any workspace, the silent keys ensure quiet typing, the spill-resistant design prevents damages from accidental spills, and the wireless functionality provides optimum working flexibility.

Silent and Smooth Typing

The TK-350 Wireless Keyboard ensures a smooth typing experience. The low-profile full layout has a silent and soft keystroke, while the adjustable angle and rubber anti-slip feet keep comfort levels high for hours. It’s fitted with 13 multimedia function keys for smart access with a single press, to further optimise your workflow.

Effortlessly Wireless

The wireless keyboard comes with a USB receiver, which can simply be plugged into a laptop’s or desktop’s free USB port so you can get to work straight away. With a 10-meter wireless range, the keyboard can control devices from a distance, such as a PC or laptop on the other side of a meeting room. After working, simply flick the off/on switch to turn off the keyboard and save on energy.
