Type-C® for all

The small, practical IB-200T-C3 external hard drive enclosure is both down-to-earth and modern. The new USB Type-C® port provides the latest connectivity with solid USB 3.0 technology. With up to 5 Gbit/s, there is always enough bandwidth for a smooth workflow.

Plain and toolless

The enclosure accommodates a 2.5" SATA HDD or SSD with a maximum height of 9.5 mm. The hard disk installation can be done quickly, easily and completely without tools. This saves time and nerves: simply slide the lid open, insert the SSD, slide the lid closed, done!

High compatibility

With USB Type-C® and USB Type-A, the enclosure has two connection options thanks to the supplied combi-cable. Depending on the fittings of the host computer, one or the other connector is used. It doesn’t matter whether the computer is running on Windows®, macOS® or Chrome OS™.
