Model: 33278B

Manufacturer: INLINE

EAN: 4043718308651

Product Code: 1448780

R1,809

Expand the connectivity of your mobile devices with this compact and high-quality hub from InLine. The 8-in-1 multihub (docking station) provides all the necessary interfaces for a workstation environment via a USB-C port with two video outputs - HDMI (1) & DisplayPort (2), one USB-C Power Delivery port for charging (3) as well as ports for SD (4) & microSD cards (5), 2x USB-A (6 & 7) and 1x RJ45 Ethernet (8). The hub is the ideal addition for mobile devices with few interfaces such as tablets, ultrabooks or smartphones. The ultrabook becomes a full-fledged workstation with two screens, series can be watched on the TV instead of on the tablet in 8k and holiday pictures from the SLR camera are available in no time for the next social media post on the mobile phone.
