The large 15,000mAh battery capacity can last up to 360 days¹ and is equipped with a USB-C port for fast charging.

Endless protection with solar panel

The Cell PT can also be connected to a solar panel for unlimited² battery life to keep your security system running 24/7.

Quick installation with just one hand

With a simple push of one hand, your Cell PT is now installed, and it only takes one click to take it off.

Panoramic pan & tilt for 360° protection

Cell PT supports 0°-355° pan and 0°-90° tilt to fully protect your home with a 360-degree view.

Light the night up with smartness

Cell PT can adjust different night vision modes according to your needs, whether you want the night vision to remain in full color all the time or want to turn on full color only when there is an event to save energy, it can always satisfy you.

More efficient PIR human detection

Cell PT will activate the video algorithm for person detection when motion is detected, ensuring efficient detection and long battery life.

Stay on target

The detection algorithm of Cell PT continuously tracks moving objects in the frame, keeping the target in the frame at all times.

Professional protection to weather any storm
