R37,992

Demolishing old floors is hard work that takes time. Therefore, we designed the GHT 130 Professional Floor Removal Cart. The cart gives you optimal support for this physically demanding task. No more struggling or bending when you try to handle the heavy breaker hammer. The cart carries the weight of the hammer – not you. Just push the cart across the floor and concentrate on your job, while the cart does the heavy lifting. It prevents painful back strain and makes sure that you do not tire so quickly. Our floor removal cart helps you get your demanding jobs done faster.

Equipment & Application

The Bosch GHT 130 Professional Floor Removal Cart perfectly assists you while you remove tough tiles, wood, vinyl, linoleum, or other floor coverings. It is compatible with our GSH 16-30 Professional and the GSH 16-28 Professional breaker hammers.
