Built-In USB-C Cable

Never be caught without a charging cable again. The Charge ‘n’ Travel GaN III Universal Adapter comes with a retractable USB-C cable built right in. This compact and clutter-free solution means your essential cable is always there when you need it – no extra wires to pack or untangle. Whether you’re charging a phone, tablet, or USB-C-powered device, simply pull the cable out, connect, and go. Designed for frequent flyers, remote workers, and digital nomads, it’s the ultimate convenience

in a pocket-sized powerhouse.

Fast, Flexible, and Fully Loaded with Power

Equipped with 7-in-1 functionality and support for up to 100W output, this adapter has the capacity to charge your entire digital kit. Use the AC sockets for standard plugs, the retractable USB-C cable for quick access, and the four USB ports to top off additional devices. With GaN III technology, you get the same powerful performance with better energy efficiency, a cooler operation, and a smaller footprint – ideal for anyone needing fast, flexible charging across borders.

Safe & Stylish for the Globetrotter

Encased in a sleek, black 3D diamond shell, this adapter doesn’t just perform – it turns heads. Its high-grade fireproof polycarbonate body ensures safety while travelling, and its CE, UKCA, FCC, and ROHS certifications prove it meets rigorous standards. A BS1362 compliant 10A fuse protects your devices – and a spare fuse is included for backup. Packaged with a travel pouch for easy storage, it’s built to handle the demands of global travel without sacrificing elegance or security.
