Confident Presenting Made Simple

The Verbatim Agenda Wireless Presenter gives you complete control over your presentation, whether you're in the boardroom, classroom, or online. With intuitive slide navigation, screen toggling, and a red laser pointer that's visible up to 100 metres, your message stays clear and professional. Designed for simplicity, it works straight out of the box—just plug in the USB receiver and start presenting. No software, no hassle, just performance you can rely on.

Designed for Versatility and Compatibility

One presenter, all your devices. The dual USB-A and USB-C receiver ensures seamless compatibility with a wide range of laptops, tablets, and desktops—whether you're using Windows, macOS, or Android. Its compact design and built-in magnetic storage for the receiver make it ideal for on-the-go professionals, educators, and students. It's a powerful, portable tool for wherever work takes you.

Premium Build, Practical Features

Crafted from durable aluminium alloy with a matte, frosted texture, the Agenda Presenter is designed for both style and comfort. The built-in rechargeable battery eliminates the need for disposable batteries—just plug in the USB-C cable to recharge and you're ready for your next meeting or lecture. Lightweight and travel-ready with an included protective pouch, it's an essential tool for anyone who presents regularly.
