

Yealink CT200

Model: 1303168

Manufacturer: YEALINK

EAN: 6938818320215

Product Code: 1450941

R23,395

The CT200 is a device manager for AV-over-IP systems, enabling seamless signal routing across devices. It provides unified local and cloud management for all Yealink devices, supports the control of both Yealink and third-party devices, and offers customizable user interfaces and control logic with automatically generated H5 interfaces—delivering powerful automation and configuration without any coding.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
