

Lindy 2m C14 to C19 Mains Extension Cable, Black (30491)

Model: 30491

Manufacturer: LINDY

EAN: 4002888304917

Product Code: 1451126

R949

The Lindy IEC C14 to IEC C19 Mains Extension Cable offers a dependable solution for powering a wide range of electronic devices in both professional and home environments.

Designed for compatibility with equipment such as UPS systems, projectors, and other devices featuring IEC cold condition ports, this extension cable is ideal for use in offices, control rooms, digital signage installations, and home theatre setups.

Constructed with high-quality materials, the cables connectors feature brass components with a lead content well below 0.1%, ensuring they are SVHC-free and compliant with stringent safety standards.

Please note: This cable is intended for use in dry indoor environments only.

IEC C14 to IEC C19 Cables is available in lengths from 1m to 3m.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice.
