# Lindy 15m Active DisplayPort 1.2 Cable

Model: 41079

Manufacturer: LINDY

EAN: 4002888410793

Product Code: 1454624

## R2,304

Lindy's Active DisplayPort 1.2 cables combine a sleek yet functional design with superior performance to provide a reliable DisplayPort transmission over distances not possible with standard passive DP cables. An active chipset, housed neatly in the centre of the cable, allows active cables to amplify DisplayPort signals effectively creating much longer DP transmissions. This creates long distance connections without the need for additional repeaters or extenders. Although many active DisplayPort cables are unidirectional and require connection to the source and display from a specific connector, these cables provide bi-directional capabilities, allowing for a simpler connection while avoiding potential compatibility issues. Combined with a stylishly designed headshell and high quality, flexible cable, these are an ideal solution for hassle-free installations through conduits or behind walls, to provide a more discreet and modern AV setup.

Featuring DisplayPort 1.2 cable technology, these cables are ideal for use with a variety of DisplayPort source device including PCs when connected to DP commercial displays and monitors.With support for resolutions up to 4k 60Hz, video content can be seen with stunning clarity,
