The new standard

USB 3.0 Type-C® connectors have two decisive advantages over the conventional forms: They are smaller and therefore made for slim notebooks and mobile devices, and it is no longer necessary to insert the plug in a certain orientation. It fits in any way, you don‘t even have to look at it.

Uncompromisingly fast

The convenience of using the adapter is also evident from the fact that there is no need to purchase an additional Gigabit network card or occupy a PCI or cardbus slot! Adhering to the USB 3.0 specification, this adapter provides true 10/100/1000 Mbps transfer rates without compromise.
