Lindy 3m Slim DisplayPort 1.4 Cable

Model: 36463

Manufacturer: LINDY

EAN: 4002888364638

Product Code: 1455884

R1,329

Lindy's range of slim DisplayPort cables provide a more flexible and high-quality DP connection solution, utilising a specially designed compact, low profile connector and a smaller diameter cable structure.

With their compact, high performance design, these cables are ideal for situations where space is limited around source and display ports, such as with gaming monitors or graphics cards. Their triple shielded 30AWG pure copper conductors ensure overall improved performance, while gold-flashed phosphor bronze pins protect against corrosion and fatigue. High quality 24K gold plated contacts and connectors maintain optimal signal integrity and maximum reliability.

Supporting DP 1.4 resolutions including 8K@60Hz and 4K@144Hz, these cables are great for high-level gaming setups, whether in the home or in an eSports arena, or alternatively with small-scale, digital signage installs such as Shop-in-Shops or concession stands. With lengths available in 0.5, 1, 2 and 3m, they are also a versatile solution for collaborative huddle spaces or engaging education setups when combined with a touch panel or LFD (large format display).
