XL-Boxx Professional: Further information

Product Highlights

The XL-BOXX is the safe storage and transportation solution for large power tools or combo kits in line with the Bosch Mobility System. It is compatible with the Sortimo in-vehicle system to ensure full versatility and allow convenient combination with L-BOXX/L-Case due to its slide-in function. For maximum flexibility, the XL-BOXX can be individually configured and the L-BOXX Micro can be attached to both sides of the XL-BOXX. The secure locking mechanism and robust design offer optimal protection for transport and storage.

Equipment & Application

Power tools, hand tools, accessories, and consumables are stored safely and conveniently with the XL-BOXX. It is compatible with the L-BOXX, L-Case, Aluminium Caddy, and Sortimo in-vehicle system.

Additional Information

It has a load capacity of up to 100 kg and in-box load capacity of up to 25 kg.
