R3,065

Whether it be monochrome, green screen or panoramic landscape: the Hama background tripod set makes working with all common formats for photo backgrounds easier, with or without a roll. You always have all the professional background design options at your fingertips

Steplessly extendable telescopic bar and tripods: the height and width of the flexible photo background system can be steplessly adjusted for a perfectly coordinated arrangement of the image motif, lighting and background

Photo studio to go: the portable background system can be packed up extremely small for transport and storage and is a piece of essential equipment for all photographers who like to be flexible and practical
