Product Code: 1457239

R1,122

PRO Ceramic dry for Long Life Drilling through Hard and Soft Ceramic Tiles

Drilling through hard ceramic tiles can be tough as standard drill bits wear too quickly and can damage the tile. It's different when you use the PRO Ceramic dry. We made it to help you drill through hard and soft tiles – time and again. The durable PRO Ceramic dry Drill Bit uses high-quality diamond grit in a metal matrix to ensure you can tackle hard and soft ceramic tiles with ease. The drill bit has cooling wax, so you don't need water to cool it down.
