The Lindy DisplayPort 1.4 to HDMI® 4K120Hz Converter is a high performance solution that allows Display 1.4 Signals to HDMI® with resolutions of 4K 3840x2160 @ 120Hz*. Making it the ideal tool for high resolution high refresh rate game streaming or high resolution video editing. Additionally supporting High-Dynamic Range (HDR) ensuring that video content can be seen with enhanced brightness, superior contrasts and a much wider colour gamut, for a more lifelike color. For the best performance of the converter the use of Ultra high speed HDMI® cables is recommended, such as the Lindy Ultra High Speed HDMI® Anthra Line Cables.

HDCP 2.2 ensures issue-free playback of 4K Ultra HD movies and other high resolution content. Active conversion guarantees compatibility with various graphics cards including AMD Eyefinity, NVIDIA surround and Intel Collage, great for an immersive gaming setup or a productive multi-screen working experience.
