EDLA Certification

Seamless access to Google services

As a Google EDLA certified interactive display, the WAFX-P comes with Google apps and services. It supports Google Play and delivers a streamlined experience designed to enhance education and collaboration.

All-in-One Video Call System

Built-in features for frictionless communications

With WAFX-P, starting a remote class or video conference requires no extra equipment or setup. The built-in 48MP camera keeps the speaker in view with Auto Framing, while the microphone captures voices within a 10-meter range, and dual 20W speakers and a built-in woofer deliver powerful audio.

AI Write & Search

Write. Circle. Search smarter

Seamlessly transition your handwritten notes into the digital world. With WAFX-P's embedded AI and digital ink recognition, simply circle handwritten notes on the screen and tap the search icon to access web results, images, and more - all without typing.

Screen Sharing

Smart, wireless sharing on multiple devices

WAFX-P supports screen sharing from up to 9 devices simultaneously, regardless of OS. Content can be shared between the main display and personal devices, maximising engagement and inclusivity.

Live Caption

Make content accessible for everyone

Make audio and video playback easier to follow for everyone. With built-in Live Caption on, WAFX-P automatically generates on-screen captions for content with audio features—supporting accessible learning and better engagement across various environments.
