TP-Link InSight S385DPS Bullet IP security camera Outdoor 5456 x 1520 pixels Wall

Model: InSight S385DPS

Manufacturer: TP-LINK

EAN: 8885020627824

Product Code: 1459226

R17,391

See the big picture, capture every detail. This 4K (8MP) dual-lens stitched panoramic camera combines ultra-low-light ColorPro night vision, advanced analytics, and active audio-visual deterrence to deliver broader coverage, clearer evidence, and smarter alerts for critical broader indoor and outdoor areas, like parking lots, public squares, and industrial perimeters.

Panoramic Coverage, Richer Details

Dual-lens stitched panoramic imaging seamlessly fuses two lenses to expand the field of view, reduce blind spots, and cut the number of install points—lowering deployment costs.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

4K (8MP) resolution paired with smart video enhancement boosts clarity and readability in backlight and low-light scenes for more reliable evidence.

Color at Night for Stronger Evidence

Ultra-low light ColorPro night vision delivers vivid color imaging in dark environments, preserving key identifiers like faces, apparel, and vehicle colors.

Smarter Detection, Precise Alerts

People & Vehicle Analytics and Human & Vehicle Classification distinguish targets to reduce false alarms; smart detection supports behaviors like intrusion, loitering, and line crossing to focus on real threats.
Red-blue warning lights and sound alerts provide visible and audible deterrence for proactive prevention and faster on-site intervention.

Easy Integration, Efficient Bandwidth

Audio and alarm interface enables linkage with external microphones, speakers, and sirens for a local response loop.
H.265+ compression maintains image quality while significantly reducing bandwidth and storage costs.

Built Tough for the Outdoors

IP67 weatherproofing and IK10 vandal-proof resistance ensure long-term reliability in harsh environments with minimal maintenance.
