R1,172

Versatile

This Mini DisplayPort™ to HDMI® / DVI-D /VGA 3-in-1 adapter enables to connect either an HDMI®, DVI or VGA monitor, TV or projector to a Mini DisplayPort™ enabled PC or MAC computer.

System requirements: Computer with Mini DisplayPort™ interface. The adapter ONLY supports output of one video port at a time. The adapter converts signals from Mini DisplayPort™ to HDMI® / DVI-D / VGA only, it is not a bi-directional (both-sided) adapter. There is no audio output from DVI-D and VGA connection. MAC computers manufactured before 2010 do not support audio output Mini DisplayPort™

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
