Jabra Speak2 55

It’s time to Speak Up

Next-generation flexible speakerphone with outstanding professional audio.

SPEAK2 55

Instant meeting room

Your office desk. Your box room-slash-home-office. A treehouse at the bottom of the garden. With a little imagination (and some cutting-edge audio engineering), you can magically make any place a meeting space. Just by pressing the ‘On’ switch.

Speak2 55 is an upgrade in every sense of the word, bringing dramatically more powerful sound, ultra-advanced microphone technology, and added flexibility. All you need to bring is, well, you.

FULL DUPLEX AUDIO

It goes both ways

Flashback to that time you quietly said “Mmmhmm” to show you were listening and engaged, and it cut the presenter off mid-sentence, interrupting the meeting for everyone (cringe). Don’t worry,

we’ve all been there. That’s why the new Speak2 Range is our first to be engineered with advanced full duplex audio.

This clever technology preserves the natural ebb and flow of real face-to-face conversations by allowing everyone to speak and be heard at the same time. Which means more natural conversations (and fewer awkward moments).

MICROPHONE TECHNOLOGY

Make the unmissable, unmissable

Voices are important in meetings. The sound of Sandra clicking her pen, or your washing machine spin cycle, not so much. The next generation of the world-leading Speak Series each feature four cutting-edge beamforming microphones with state-of-the-art noise cancellation.

This powerful technology picks up sound from all directions, and expertly filters out disruptive background noise, like Janice munching biscuits. So, when your boss says, “take the afternoon off”, you won’t miss it.

VOICE LEVEL NORMALIZATION

Different. But the same.

People are at their most brilliant when they can be themselves. Your softly-spoken colleagues shouldn’t have to shout to be heard. Just like you wouldn’t want your more excitable colleagues to feel like they have to ‘reign it in’. So we engineered the full Speak2 Range with our revolutionary new Voice Level Normalization.

This advanced voice technology equalizes all voices to the same volume level, so everyone is free to express themselves in the way that comes naturally, and there’s no need to keep fiddling with the volume.

OUTSTANDING AUDIO QUALITY

Go big (and go home)

Great sound is so OG Speak. Speak2 is all about BIG sound. You know, the kind that fills up the room, so you don’t have to lean in to get what’s being said, and every little detail is clear as a bell.

Our full-range 50mm speaker with wideband audio captures and delivers sound across a wide range of frequencies, so you can take big sound with you wherever you work best.

CERTIFICATIONS

Together from wherever

It doesn’t matter whether you’re working from your kitchen table, your office desk, or your treehouse, if your speaker works smoothly with your virtual meeting platform, you can get together anywhere.

Speak2 55 is certified for all leading platforms (which means it optimizes the whole experience and delivers professional call quality every time). So whether you prefer to jump on Microsoft Teams, Google Meet or Zoom, you can rely on seamless plug-and-play connectivity and reliably brilliant meetings right from the get-go.

DESIGN

A fresh twist on a classic

The original Speak Series is a firm favorite. It’s even earned itself a nickname – “the puck” – courtesy of our ice-hockey-loving customers. So you’ll be pleased to know we’ve kept the now-iconic shape for Speak2 55. We’ve just given it a makeover, with a custom-designed fabric cover for improved acoustic performance.

It’s also small and durable enough to chuck in a bag. We wouldn’t recommend playing ice hockey with it though.

DURABILITY

Pop the boardroom in your bag

Monday, the office. Tuesday, the kitchen table. Wednesday, a park bench. Hybrid working can take you and your speakerphone to some unusual places. So we’ve given the durability a hybrid upgrade.

EASE OF USE & BATTERY

And… you’re off

Just plug-and-play and you’re off faster than you can say “could you just repeat that?” And for those of you who like choice, we’ve got options. Use the USB cable for a direct line, or go wireless with up to 12 hours of battery life.

IP64-rated protection from dust & water, and a smart protective pouch mean you can confidently take this little speaker anywhere without worrying. Even if your hybrid working week takes you to a different place every day.

FUTURE-PROOF

Built for today (but ready for tomorrow)

The USB twilight zone is here, and while half of us are still rocking our near-vintage USB A laptops, the other half is already in the USB C future. To make sure everyone can use it, the new Speak2 Range is the first to have both connectors on the same cable. No more hunting for an adapter.

You can also keep it updated with the latest firmware via Jabra Direct and Xpress software. Because you deserve the best.

SUSTAINABILITY

Thinking sustainably

We recognize that technology hasn’t always been inherently sustainable, but we’re working hard to put that right. To help protect our planet, we consider sustainability carefully at every stage of product development.

The outer casing of Speak2 55 is made with over 50% sustainable materials, and has a number of built-in parts that can be repaired or replaced. All of this adds up to better sustainability and longer speaker life – and more high-quality, productive calls for you and your team for years to come.
