Hama Profi Line Circular polarising camera filter 58 mm

Model: 00077104

Manufacturer: HAMA

EAN: 4007249771049

Product Code: 1465327

R1,618

- Precision rotary mount to adjust for the best filtering effect, high-quality lens glass, for removing distorting mirror effects and generating rich colours with maximum picture contrast.
- Enhances contrast and brings depth to the picture, e.g. the sky becomes a strong blue, clouds become artificially white, colours are clearer and more intense.
- Depending on the filter setting, the contrast and depth vary and non-metallic reflections (water, plastic, glass, etc.) are removed.
- Maximum effectiveness with a photographic angle of 30-40° to the reflecting surface.
- Ultra-flat and ultra-lightweight rotary mount for variable settings.
- Effect filter with effects that cannot be achieved subsequently using an image editing program: objects worth seeing, for example behind shop windows or aquariums, become visible.
- NMC16 coating: eight layers on each side, for excellent permeability to light and superb anti-

reflective properties.

- Vapour-deposited, multi-layer coating.
- Nano-coating for the lotus effect: easy to clean, prevents misting and further dirt accretion, water, oil and dirt-repellent.
- Scratch-resistant.
- Filter front and back are coated, ensuring no loss of contrast or brilliance and preventing ghosting and double images.
- Ultra-thin wide mount: prevents vignetting.
- Barely increases the lens front section.
- Filter mount made from black anodised metal and blackened inner edges to prevent reflections.
- Edge sealant protects against soiling.
- Stable shape of the mount despite temperature fluctuations.
- Quality class (glass): high-quality lens glass.
- Simultaneous lens protection.

What's in the Box

- 1 "Profi Line" polar filter.
- 1 filter box.
