EYE CARE MONITOR

LEARN, WORK & PLAY, THE HEALTHY WAY

ASUS VY27UQ Eye Care monitor is designed with your health in mind. It features ASUS Eye Care Plus technology, a proprietary long-lasting antibacterial treatment on the bezels and hotkeys, and an advanced IPS 4K HDR panel that delivers exceptional visuals. Ideal for eLearning, work or entertainment, the combination of a 60 Hz refresh rate and Adaptive-Sync technology ensures you’ll enjoy consistently smooth visuals with any content.

Impeccable Detailed Visuals in 4K HDR

VY27UQ immerses you in a world filled with breathtaking levels of detail. It features a 27-inch 4K UHD (3840 x 2160) panel to give you four times the pixel density and up to 300% more onscreen space than similarly-sized Full HD displays. This means you get to enjoy sharp, detailed visuals. On top of that, more onscreen space for multitasking so you get more things done quickly.

Adaptive Sync for super smooth visuals

A 60Hz refresh rate and 5ms(GTG) help reduce smearing and motion blur, making VY27UQ perfect for fast-paced games that require quick reactions to what’s happening onscreen. In addition, Adaptive-Sync technology helps eliminate screen tearing and choppy frame rates for ultra-smooth gameplay.

ASUS-exclusive GamePlus Technology

When it comes to design, ASUS always has customers in mind – ASUS exclusive GamePlus hotkey with Crosshair, Timer, FPS counter and Display Alignment functions to give you in-game enhancements that help you get more out of your game. This function is co-developed with input from pro gamers, allowing them to practice and improve their gaming skills.

Adjustable ASUS Blue Light Filter

An integrated TÜV Rheinland-certified ASUS Blue Light Filter protects eyes from harmful blue light. Settings can be quickly accessed via the onscreen display (OSD) menu or the DisplayWidget Center, makes it easy to adjust filter levels to suit any scenario or user preference.

Flicker Free Technology

Say goodbye to tired, strained eyes

Integrated TÜV Rheinland-certified ASUS Flicker Free technology reduces onscreen flicker to ensure comfortable viewing. This technology helps minimize instances of eyestrain that can result from long sessions in front of a display.

Long-lasting antibacterial treatment

Stay clean, stay healthy

The bezels and hotkeys on VY27UQ feature an antibacterial ionic silver treatment1. By preventing bacteria adhesion2 by up to 99.9%, it keeps key areas of the monitor clean and hygienic, potentially reducing the spread of harmful bacteria.

VY27UQ has been subjected to the ISO 22196 Antimicrobial Activity and Efficacy tests conducted by independent testing lab TÜV SÜD.

How Ionic Silver works

Positively-charged silver (Ag+) ions bind with the cell walls of negatively-charged microbes and bacteria, disrupting their internal functions and killing them off.
