

GIGABYTE C400 Midi Tower Black

Model: GB-AC400G

Manufacturer: GIGABYTE

EAN: 4719331554934

Product Code: 1465994

R3,484

OPTIMIZED VERTICAL AIRFLOW DESIGN

Based on the principle of the stack effect, which enhances the speed of air convection, allowing air to flow rapidly from bottom to top within the chassis, achieving more efficient heat dissipation. The bottom, top, and front panels all feature vented designs, enabling ample intake airflow for internal cooling, thus delivering excellent cooling performance.

40L COMPACT SIZE WITH OUTSTANDING COMPATIBILITY

With a compact size of nearly 40 liters, the AORUS C400 GLASS can support a ATX motherboard, up to 360mm liquid cooling, and even a power-hungry graphics card with thickness thermal design, which strikes a perfect balance between size and compatibility.

MAX COMPATIBILITY

Vertical GPU Installation

TEMPERED GLASS SIDE PANEL

Built with a 4mm black tempered glass side panel, making your PC parts and RGB lighting more attractive and gorgeous. The non-drilled glass design effectively reduces the risk of fragmentation, allowing users to remove it with ease and safety, thus extending the product's lifespan.

RGB FUSION

With 16.7M customizable color options and numerous lighting effects, you can choose lighting effects or synchronize with other devices.

ARGB & PWM CONNECTOR HUB

The built-in ARGB and PWM connector hub is equipped with five 5V 3-pin and five PWM connectors, enabling users to expand their RGB light stripes, create a superb cooling system as well as a fantastic and gorgeous rig.

EASY TO INSTALL.

EASY TO USE.

TOOL-FREE INSTALLATION

Thanks to its modular design, users can easily remove the front, top, and side panels without any tool when updating or changing components.

DETACHABLE FAN AND RADIATOR BRACKET

The detachable bracket is designed for fan and radiator installation on the top panel, which makes assembly easier and more convenient.

DETACHABLE DUST FILTER

The filters keep your PC from accumulating dust, while maintaining optimal cooling performance. The magnetic filter of front and top panels, along with the removable filter at the bottom, make
