Secure a laptop, docking station, or other peripherals with this universal 3-in-1 lock featuring combo and keyed options

The 10-Pack 3-in-1 Dual-Access Laptop Lock secures laptops and other devices with universal slot support. Each lock features a 6.6ft (2m), 4.4mm thick cut-resistant steel cable and a durable 15.6mm lock head, ideal for protecting K-Slot, Nano, and Noble Wedge® slot-equipped devices in high-traffic commercial, educational, and institutional environments.

## Multi-Slot Compatibility

Each lock features an innovative 3-in-1 locking tip that adjusts to fit standard (K-slot), nano, and wedge slots. The head secures to each slot type by simply turning a knob, with no interchangeable parts required, supporting a wide range of modern and legacy devices with a single solution.

## Dual Access for IT Oversight

The resettable 4-digit combination lock offers personalized security for users, while the keyed-alike override system provides IT administrators with universal access across all locks. The pack includes four Shared Keys to simplify fleet management and reduce lockouts.

## Durable and TAA Compliant

Constructed from zinc alloy with a cut-resistant steel cable, this TAA-compliant locking solution is designed for deployment at scale in government, enterprise, and education settings.

## Scratch-Free Fit for Any Device

Each lock includes plastic spacers in three thicknesses to ensure a snug, secure, and scratch-free connection, ideal for laptops, docking stations, monitors, and lab equipment.

## Flexible Installation and Portability

The included hook-and-loop straps keep cables organized for easy transport. Optional anchors (LTANCHOR, LTANCHORL, sold separately) allow the lock to secure equipment to fixed objects,
