Standard for Wood Rounded Over Bit delivers a high cutting performance when creating edge roundings

- Bit design prevents kickbacks by limiting the generated chip-thickness

- For easy-guided edge roundings as well as decorative applications in soft and hard solid wood and wood composites
- Ball bearing allows for easy guiding without a side fence
- The ball bearing allows for easy guiding directly on the workpiece without a side fence.

It is suitable for use with handheld-routers and table-mounted portable routers.
