R1,642

The TOASTER 2er Retro brings the soft curves of the 50s retro style into the kitchen ambience - and the shiny stainless steel finish makes it a decorative eye-catcher that is not only stylish, but also practical! The 2-slice toaster has space for classic slices of toast - so the crispy part of breakfast is ready in no time. With four functions, the TOASTER 2er Retro in its high-quality stainless steel housing leaves nothing to be desired: whether defrosting slices of bread, warming up/toasting again, toasting or quickly stopping (so that the browning is just right): everything can be selected very easily at the touch of a button! There are also seven levels of browning adjustable, so there is the right crispy factor for every taste! The 790 to 950 watts bring power into play! The slices of bread are automatically centered - and the operating indicator lights show what the TOASTER 2er Retro is currently doing! Of course, there is a removable crumb tray - and the space-saving cable storage in the base of the TOASTER 2er Retro is just as standard as the anti-slip feet for a secure stand.
