

ICY BOX IB-HUB1457-C31 USB 3.2 Gen 1 (3.1 Gen 1) Type-C 10000 Mbit/s Blue, Grey

Model: IB-HUB1457-C31

Manufacturer: ICY BOX

EAN: 4250078173984

Product Code: 1473773

R1,943

Enough ports for all your devices

The hub contains a total of 7 USB Type-C® 3.2 Gen 2 ports. They offer the user a data transfer rate of up to 10 Gbit/s. In addition to the high transfer rate, the lowest port of the device also offers a charging function with up to 20 watts.

Maximum overview, minimal effort

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.

The display always shows you which ports are currently in use and how much current is being transferred via the 20 watt Power Delivery port during charging. Devices such as smartphones, tablets, and storages can easily be connected and exchanged via Plug & Play.

Engineered for enduring performance

With the included 36 W power supply, you enjoy reliable and fast charging power and 7 ports. The charg- ing function of the last port enables charging with up to 20 W. And even without an external power source, you’ll always be well-connected via the first six USB-C ports.

- Sevenfold expansion from one USB Type-C port: For quick and easy expansion of a USB-C port, the hub offers seven additional ports with data transfer rates of up to 10 Gbit/s
- 20 W charging port: In addition to data transfer, the lowest of the seven USB Type-C ports also offers blazingly fast charging of a device. This keeps you always on a good battery level at work (Attention: power supply unit required)
- Integrated display: The integrated display provides a quick and clear overview of the active ports and the currently transmitted charging power. So you are always in control
- Plug & Play: All ports feature Plug & Play, allowing you to work smoothly without having to constantly disconnect the connected device from the PC before you need to unplug it
- Full power with power supply: Seven ports are available for mobile use without external power connection. With the included 36 W power supply, your connected devices will never lack power and you can access all additional ports
