integration to Microsoft Teams Rooms and optimization for Front Row, this ViewBoard display promotes inclusivity and engagement for any of your team huddles, meetings and brainstorming sessions. Whether team members are in the meeting room, on video conference, or participating via chat, everyone can be seen and heard. Plus, with its ultrawide 21:9 aspect ratio and 5K resolution, this display delivers a huge interactive touchscreen and stunning visuals to boost collaboration and productivity. The high-accuracy touchscreen also features intelligent palm recognition technology for an intuitive digital whiteboard experience. A 60W soundbar with integrated microphone delivers optimal audio for everyone in the meeting room, as well as those calling in remotely.

Ultrawide Screen For Microsoft Teams Rooms

This huge 92" touchscreen with an ultrawide 21:9 aspect ratio delivers a nearly limitless canvas for digital whiteboard collaboration. The combination of Microsoft Teams Rooms and Front Row fosters inclusivity by enabling all participants, whether remote or on-site, to actively participate in discussions, share ideas, and collaborate in real time.

Instant Meeting With Intuitive Screen Sharing

Say goodbye to fumbling with wires and complicated setups. With ViewBoard Cast™ software, your devices wirelessly connect to the ViewBoard display in a snap, and meetings start instantly. Multiple users can simultaneously annotate content on their devices in real time, and then cast and share that content onto the ViewSonic display.

TeamOne Collaboration On A Grand Scale

ViewSonic TeamOne™ software transforms this massive touchscreen into an infinite digital whiteboard. This intuitive and secure suite empowers teams anywhere to collaborate in real-time with limitless space. Sketch freely, annotate ideas, share documents and images – all without ever running out of room. TeamOne fosters boundless creativity and productivity for the modern team.

Incredible 5K Ultra HD Resolution

Native 5120 x 2160 resolution delivers over 11 million pixels for sharper and clearer visuals. Plus, the extra screen real estate boosts multitasking by allowing you to open applications side-by-side

without sacrificing readability.

Ultra-Responsive Touchscreen

40-point touch allows multiple users to simultaneously write or draw on the display's surface using styluses or their fingers, or both at the same time. Palm recognition technology minimizes errant touch inputs from palms, wrists, sleeves, etc., so that users can write and annotate freely.

USB-C With Power Delivery

Thanks to USB-C connectivity with up to 100W power delivery, you can easily connect to the ViewBoard display while leaving your devices fully charged. Just plug in your device, present your content on the large screen, then walk away and leave the meeting with a completely charged batter

Optional OPS Slot-in PC

Based on your specific collaboration needs, you can choose an optional ViewSonic OPS slot-in PC to provide additional computing power and advanced features. Options include Intel Core i5 and i7 processors, as well as Windows 11 Pro, and Android.

Versatile Accessories

Optional mounting accessories such as mobile carts and wall mounts give you the flexibility to install these displays in a variety of spaces and environments. In addition, You can pair our ViewBoard displays with our VB-CAM-201 video conferencing camera for clear audio and video.

Device Management Made Easy

For IT admins, it's tough to manage the hundreds of devices and displays that live on a network. Now with ViewSonic myViewBoard Manager, an easy-to-use web-based application, you can securely set up, manage and maintain all of your organization's devices from a centralized dashboard.
