

COUGAR Midi Tower Case, FV150 ARGB, Pink

Model: CGR-5KA1P-RGB

Manufacturer: COUGAR

EAN: 4710483778360

Product Code: 1474724

R3,088

Build Visibility and Hardware Management, Perfectly Balanced

The dual-chamber design of the FV150 RGB aligns aesthetics with functionality: the glass panels of one chamber are perfect for a clean view of your build while cables, storage and PSU are discreetly hidden in a second chamber. A bottom fan bracket lets you secure fans to the bracket prior to installation, allowing for a completely stress-free setup. GPU and ATX motherboard compatibility offers unlimited flexibility for multiple build configurations.

Dual Chamber

Display your build with pride in the primary glass chamber while concealing hardware within the secondary chamber for a clean look.

Easy Fan Installation

We’ve prioritized user convenience with an engineered bottom fan bracket that lets you attach your fans directly to the bracket before installation, saving you time and effort during setup.

Cooling Capacity

The FV150 RGB has a capacity of 3 x 120mm or 2x140mm on the top and bottom, 3x120mm fans on the side, and 1 x120mm on the rear. (ARGB side and rear fans in addition to fan hub are preinstalled.) Water cooling support maxes out at 360mm on top and 240mm on the side.

Versatile GPU Options

With up to 400mm GPU clearance and support for vertical orientation, the FV150 RGB fully accommodates high-performance components for modern gaming.

Flexibility Across The Board

The FV150 RGB is compatible with Mini-ITX, Micro-ATX, and ATX motherboards, offering flexibility for various build configurations.

Seamless RGB Synchronization

The integrated universal fan hub ensures seamless synchronization of the fan RGB lighting.

Peripheral Vision

The FV150 RGB’s I/O panel includes 2 x USB Type-A and 1 x USB 3.2 Type-C ports.

Full House

itworkup.co.za | sales@itworkup.co.za | +27 (11)541-9950

The FV150 RGB can house up to 1 x 3.5” HDD and 2 x 2.5” SSD drives or 1 x 2.5” SSD and 2 x 3.5” HDD drives.

Protection Detail

Dust covers on the three ventilated sides effectively prevent dust from entering, keeping your components clean. The top and right side filters attach magnetically, facilitating easy removal and maintenance.
