Model: 30204

Manufacturer: VERBATIM

EAN: 023942302049

Product Code: 1476392

R1,413

Ultra-Long 110 Hour Wireless Performance

Designed for extended listening, the Verbatim TruSound Pro Neckband Earbuds deliver up to 110 hours of playtime from a powerful 900mAh dual battery system. Ideal for commuting, travel or long workdays, these Bluetooth 5.4 wireless earbuds provide stable connectivity and energy-efficient performance. The 10mm drivers deliver clear highs, balanced mids and controlled bass across a full 20Hz-20kHz frequency range.

For added everyday convenience, the magnetic earbuds feature a smart auto on/off function. When attached together, the earbuds automatically power off to preserve battery life. Simply pull them apart and they power on instantly, ready to connect. Reattaching them switches them off again, providing effortless control without the need to press any buttons.

The flexible neckband design ensures all-day comfort while keeping your earbuds secure when not in use.

Enhanced Call Clarity with ENC Technology

Environmental Noise Cancellation (ENC) improves voice clarity during calls by reducing background noise picked up by the microphone. Unlike Active Noise Cancellation, which reduces noise you hear, ENC focuses on filtering ambient sounds such as traffic or office noise so the person on the other end hears you more clearly. With a built-in microphone featuring -38dB sensitivity and a signal-to-noise ratio of $\geq 80\text{dB}$, these earbuds are ideal for calls, online meetings and voice messaging.

Secure, Comfortable and Built for Everyday Use

The lightweight 74.2g neckband design offers a secure fit while remaining comfortable for extended wear. Constructed from durable ABS, silicone and TPE materials, the earbuds are designed for everyday reliability. Bluetooth 5.4 ensures fast pairing and stable connections with smartphones, tablets and laptops. USB-C charging adds modern convenience, while multiple ear tip sizes (S, M, L) allow a personalised fit for improved comfort and sound isolation.

For further details on features and operation, please refer to the Quick Start Guide (QSG) included with the product.
