

Kensington MagPro Elite Magnetic Privacy Screen Filter for MacBook Neo 13"

Model: K54372WW

Manufacturer: KENSINGTON

EAN: 085896042617

Product Code: 1476666

R1,998

MagPro™ Elite Magnetic Privacy Screen for MacBook Neo 13 is a premium, purpose-built solution designed to safeguard sensitive information in shared and mobile environments. Its precision magnetic attachment secures directly to the MacBook Neo frame — no adhesives, no residue and no device impact - allowing for easy detachment and reattachment as required. The screen limits viewing angles to $\pm 30^\circ$ to help prevent visual hacking, while a reversible matte/glossy surface reduces glare and a blue light filter for improved viewing comfort. Unlike tab or adhesive based alternatives, it preserves full functionality, supporting complete laptop closure, sleep mode, and clear webcam visibility without removal.

The product information provided is for reference purposes only. Technical specifications, photos, descriptions and prices may change without prior notice. The manufacturer and seller are not responsible for possible data discrepancies or typographical errors. We recommend checking the current information before purchasing.
