resolution video and audio signals and supports resolutions up to 3,840 x 2,160 @60Hz with full colour spectrum in RGB and YCbCr 4:4:4.
Compatible with USB 3.1 and DisplayPort 1.2 standards as well as Thunderbolt 3 connections, the cable is suitable for a wide range of devices. Signal transmission is possible without additional drivers or power supplies thanks to Plug & Play and power supply via USB. This allows the cable to be used flexibly in various environments, such as home offices, training rooms or stationary workstations.
The gold-plated contacts ensure a reliable connection, even with regular use. Windows systems from version 7 and macOS from 10.9 are supported. A USB-C connection with DisplayPort Alternate Mode or a Thunderbolt 3 port is required.

Supported standards: USB 3.1, DisplayPort 1.2
Supported resolution: up to 3,840 x 2,160 @60Hz with RGB and YCbCr 4:4:4
Computers with Thunderbolt 3 are supported
For transferring video and audio signals
USB powered, no power supply required
Gold-plated contacts
Plug & Play

System requirements:
Windows 7/8/10, Mac OS 10.9 and newer
PC with a free USB-C port that supports DisplayPort Alternate Mode or PC with a free Thunderbolt 3 port
