
3M 924

Model: 924655

Manufacturer: 3M

EAN: 5010027783676

Product Code: 1479387

R1,129

Apply Scotch® ATG Adhesive Transfer Tape 924 for various substrate or material combinations. Our transfer film tape is an acrylic, reverse wound, pressure sensitive adhesive on a densified kraft paper liner, for use with Scotch® ATG Adhesive Applicators.

Use Scotch® ATG Adhesive Transfer Tape 924 with Scotch® ATG Adhesive Applicators. Our transfer film tape is an acrylic, reverse wound, pressure sensitive adhesive on a densified kraft paper liner for applying on a variety of substrate or material combinations. It's a great general purpose adhesive tape, offering high adhesion, good solvent resistance, and excellent ultraviolet (UV) resistance. It bonds on contact when delivered through the ATG system. A controlled application of the adhesive is delivered while the liner rewinds into the ATG applicator. The ATG tape system is a cost effective replacement to rivets, staples, screws, bolts, liquid adhesives and is safer than hot melt adhesives. It's versatile, convenient, quick and easy to use.
