Industrial Network Cabinet - Floor-standing with IP55 rating - protection against dust ingress and water jets

The IP55 Free-standing Cabinet from Intellinet Network Solutions is equipped to handle challenging environmental conditions. The cabinet's powder-coated steel housing is compliant with IEC standard EN 60529 for safe protection against dust ingress and water jets from any direction. Four sealed cable glands on the bottom panel and pre-punched openings on all sides of the plinth allow for cable entry. To ensure the neatly sealed design, the cabinet comes fully assembled, which also makes your installation quick and convenient. The sturdy 19" steel construction holds heavy rack-mounted equipment up to 1000 kg (2200 lbs.) and can be secured with a 3-point door lock on the swing handle. This IP55 19" cabinet is available in 27U and 42U sizes.

Includes four-fan ventilation unit for efficient cooling

To keep your network equipment cool, this cabinet has a built-in, roof-mounted four-fan ventilation unit. It provides improved performance and longer life to your networking components through reliable cooling and ideal air circulation.
